

# Diade DD1010

## Weighing Indicator with Touchscreen-Technology

[www.pfisterwaagen.de](http://www.pfisterwaagen.de)

**NEW!**

## MAIN FEATURES

### RELIABILITY AND VERSATILITY

- Touch Screen – operation at a finger tip
- Intended for industrial applications, the enclosure is manufactured from robust innovative antistatic fireproof V0PC/ABS UV resistant plastic material with a front panel protection rating of IP65.
- For aggressive environments a range of stainless steel versions with an IP68/IP69K protection rating are available .
- **Create your particular display!**  
The four mostly used function keys can be placed on in the main screen as needed (selection of different shortcut keys)
- Of course commercially verifiable acc. to precision class III
- **Windows™**- character sets displayable, thus usable for various languages

### DATA MANAGEMENT

- The use of an **SQL relational database** with **remote connection** services and archive flexible structure allows **targeted management** of data
- which can be easily exported (CSV file format) to the company **databases**, through **network**, **SD card** or **USB memory stick**.
- A **PC based software package** can be used for the remote management of the databases
- The current weight ticket and statistic results can be archived in a **PDF format**. or data transmission can be done automatically **by e-mail** (e.g. weight ticket PDF, malfunction warning messages such as out-of-paper messages etc.)

### CONNECTIVITY

- provided with Standard-Ethernet- and optional **WiFi-connection**
- 2 additional serial communication ports
- **2 slots** for optional cards
- **2 USB-Ports** and a slot for the "SD-card", make DD1010 an innovative instrument, interacting with the latest IT-devices present on the market.

The remote maintenance for software updating or VNC remote control are user friendly and practical.

### INSTALLATION VARIANTS

- desktop installation
- wall mounting
- on a floor stand

Choose the display color to suit the working conditions

## TECHNICAL CHARACTERISTICS

- Processor 624 MHz
- 128 MByte RAM
- 128 MByte Flash Memory on board
- 5.7" TOUCH SCREEN color display, utilizing TFT technology with LED backlight
- Ethernet Port 10/100 MBps
- 1 expansion for SD card
- 2 USB Host ports
- 2 RS232/RS422 serial outputs for connection to printers, repeaters, barcode readers, PC, etc.
- Power supply: 110-240 VAC, 50/60 Hz with external power supply, 12 VDC; even for connection in a car (12V/25W)

### IT CAN BE CONNECTED TO MAX. 2 ANALOGUE OR DIGITAL SCALES

2 slots dedicated expansions (Serial, I/O digital, Field Bus, I/O Analog, etc.)

#### Digital load cells:

- power supply voltage 10 – 18 VDC
- 12 digital load cells for each scale
- 8 + 8 load cells in the double scale version (Duplex)
- power supply: 110-240 VAC, 50 /60 Hz with external input power supply 12 VDC

#### Analogue load cells:

- power supply voltage 5 VDC (optional 10 VDC)
- 12 load cells with 350 Ohm impedance for each scale
- 12 +12 load cells in the double scale version (Duplex).
- A/D convertor characteristics: Delta Sigma 24 Bit, digital filtering, +5 VDC-power supply

- CE approval for up to 6000 divisions – Multidivision and multirange versions (3x3000 or 2x4000)
- OIML Certificate
- NTEP Approval

## OPTIONAL

### SERIAL OUTPUT CARD

It allows managing 2 additional serial outputs besides the two provided.

- RS32, RS422, RS485 opto-isolated formats

### INPUT/OUTPUT CARDS:

#### TYPE A

- There are 4 inputs and 6 outputs for each card
- Input: with galvanic insulation  $V_{max}$  24Vdc
- Output: Optomos  $V_{max}$  24Vac/Vdc ,  $I_{max}$  190 mA
- Inputs/Outputs on terminal

#### TYPE B

- There are 8 inputs and 12 outputs for each card
- Input: with galvanic insulation  $V_{max}$  24 Vdc
- Output: Optomos  $V_{max}$  24 Vac/Vdc,  $I_{max}$  200 mA
- Inputs/Outputs on 25-pole Dsub
- 25-pole DSUB interface cable / terminal block

### FIELD BUS CONNECTION CARDS

Connection cards for Fieldbus networks

- Profibus DP Operation, Ethernet/IP, Profinet, Modbus

### WiFi COMMUNICATION DEVICE

- Internal option of the wireless data transmission device according to 802.11b/g **WLAN / WiFi**
- External option (**Bridge ETH-WiFi**)

### DIGITAL-INPUT CARD/ANALOG OUTPUT-INPUT

Multi-purpose optional card

- 1 analog output 0-10V/4-20 mA
- 2 impulse count inputs Freq max 2 kHz
- 1 analog input 0-10 V/4-20 Ma
- Inputs/Outputs on terminal

### SCALE INTERFACE CARD

#### ANALOG

- Internal resolution up to one million points, conversion speed up to 100 conversions/second
- Digital filters that can be customized by SW parameters

#### DIGITAL

- Opto-insulated RS485 interface with proprietary protocol
- Diagnostic management of digital cells (conversion, power supply, temperature, etc.)
- Automatic software correction of the eccentric load
- Cell power supply from 10 to 18 Vdc, it can be varied automatically depending on the cable length

- 1) Slot for optional cards
  - Serial cards
  - I/O cards
  - Field Bus card
  - Digital input cards/analog output
- 2) Scale 1  
Scale 2
- 3) 2 serial ports RS232/422
- 4) Exp for SD CARD
- 5) Ethernet port 10/100 Mb 15/5
- 6) USB HOST port
- 7) Power supply 12 V via external power supply

## Installation Variants

dimensions in mm

**DD1010 desk top version**

**DD1010 wall mounting (optional)**

**DD1010 with printer STB Q3**

## DD1010i cable entry glands

- ❑ complete from stainless steel
- ❑ protection degree IP 68 / IP 69K for harsh and aggressive environments

### Installation Variants

DD1010i desk top version

DD1010i wall mounting (optional)

dimensions in mm

DD1010i in an aquarium

## DD1010iC with ports

- complete from stainless steel
- with protection IP 65

### Installation Variants

DD1010iC desk top version

dimensions in mm

DD1010iC wall mounting (optional)

**DD1010 ic with ports/entry glands**

**Ports available:**

1. slot for optional cards
2. scale 1
3. scale 2
4. COM2
5. COM1-RS232/422
6. extension for SD-card
7. Ethernet port 10/100 Mbps
8. USB-host ports
9. power supply 12 V (via external power supply unit)

**DD1010 i version with cable entry glands**

**Glands available:**

1. USB host ports
  2. IP 68/69K
- Stainless steel cable entry glands**

-Subject to technical modifications-
